

MICROSOFT POWERS GENOCIDE

How Microsoft profits from the Israeli Occupation Forces (IOF), a Top 500 customer

19,000

hours of Microsoft engineering support provided to the IOF

200x

increase in IOF use of OpenAI & Azure AI in the first 6 months of the genocide

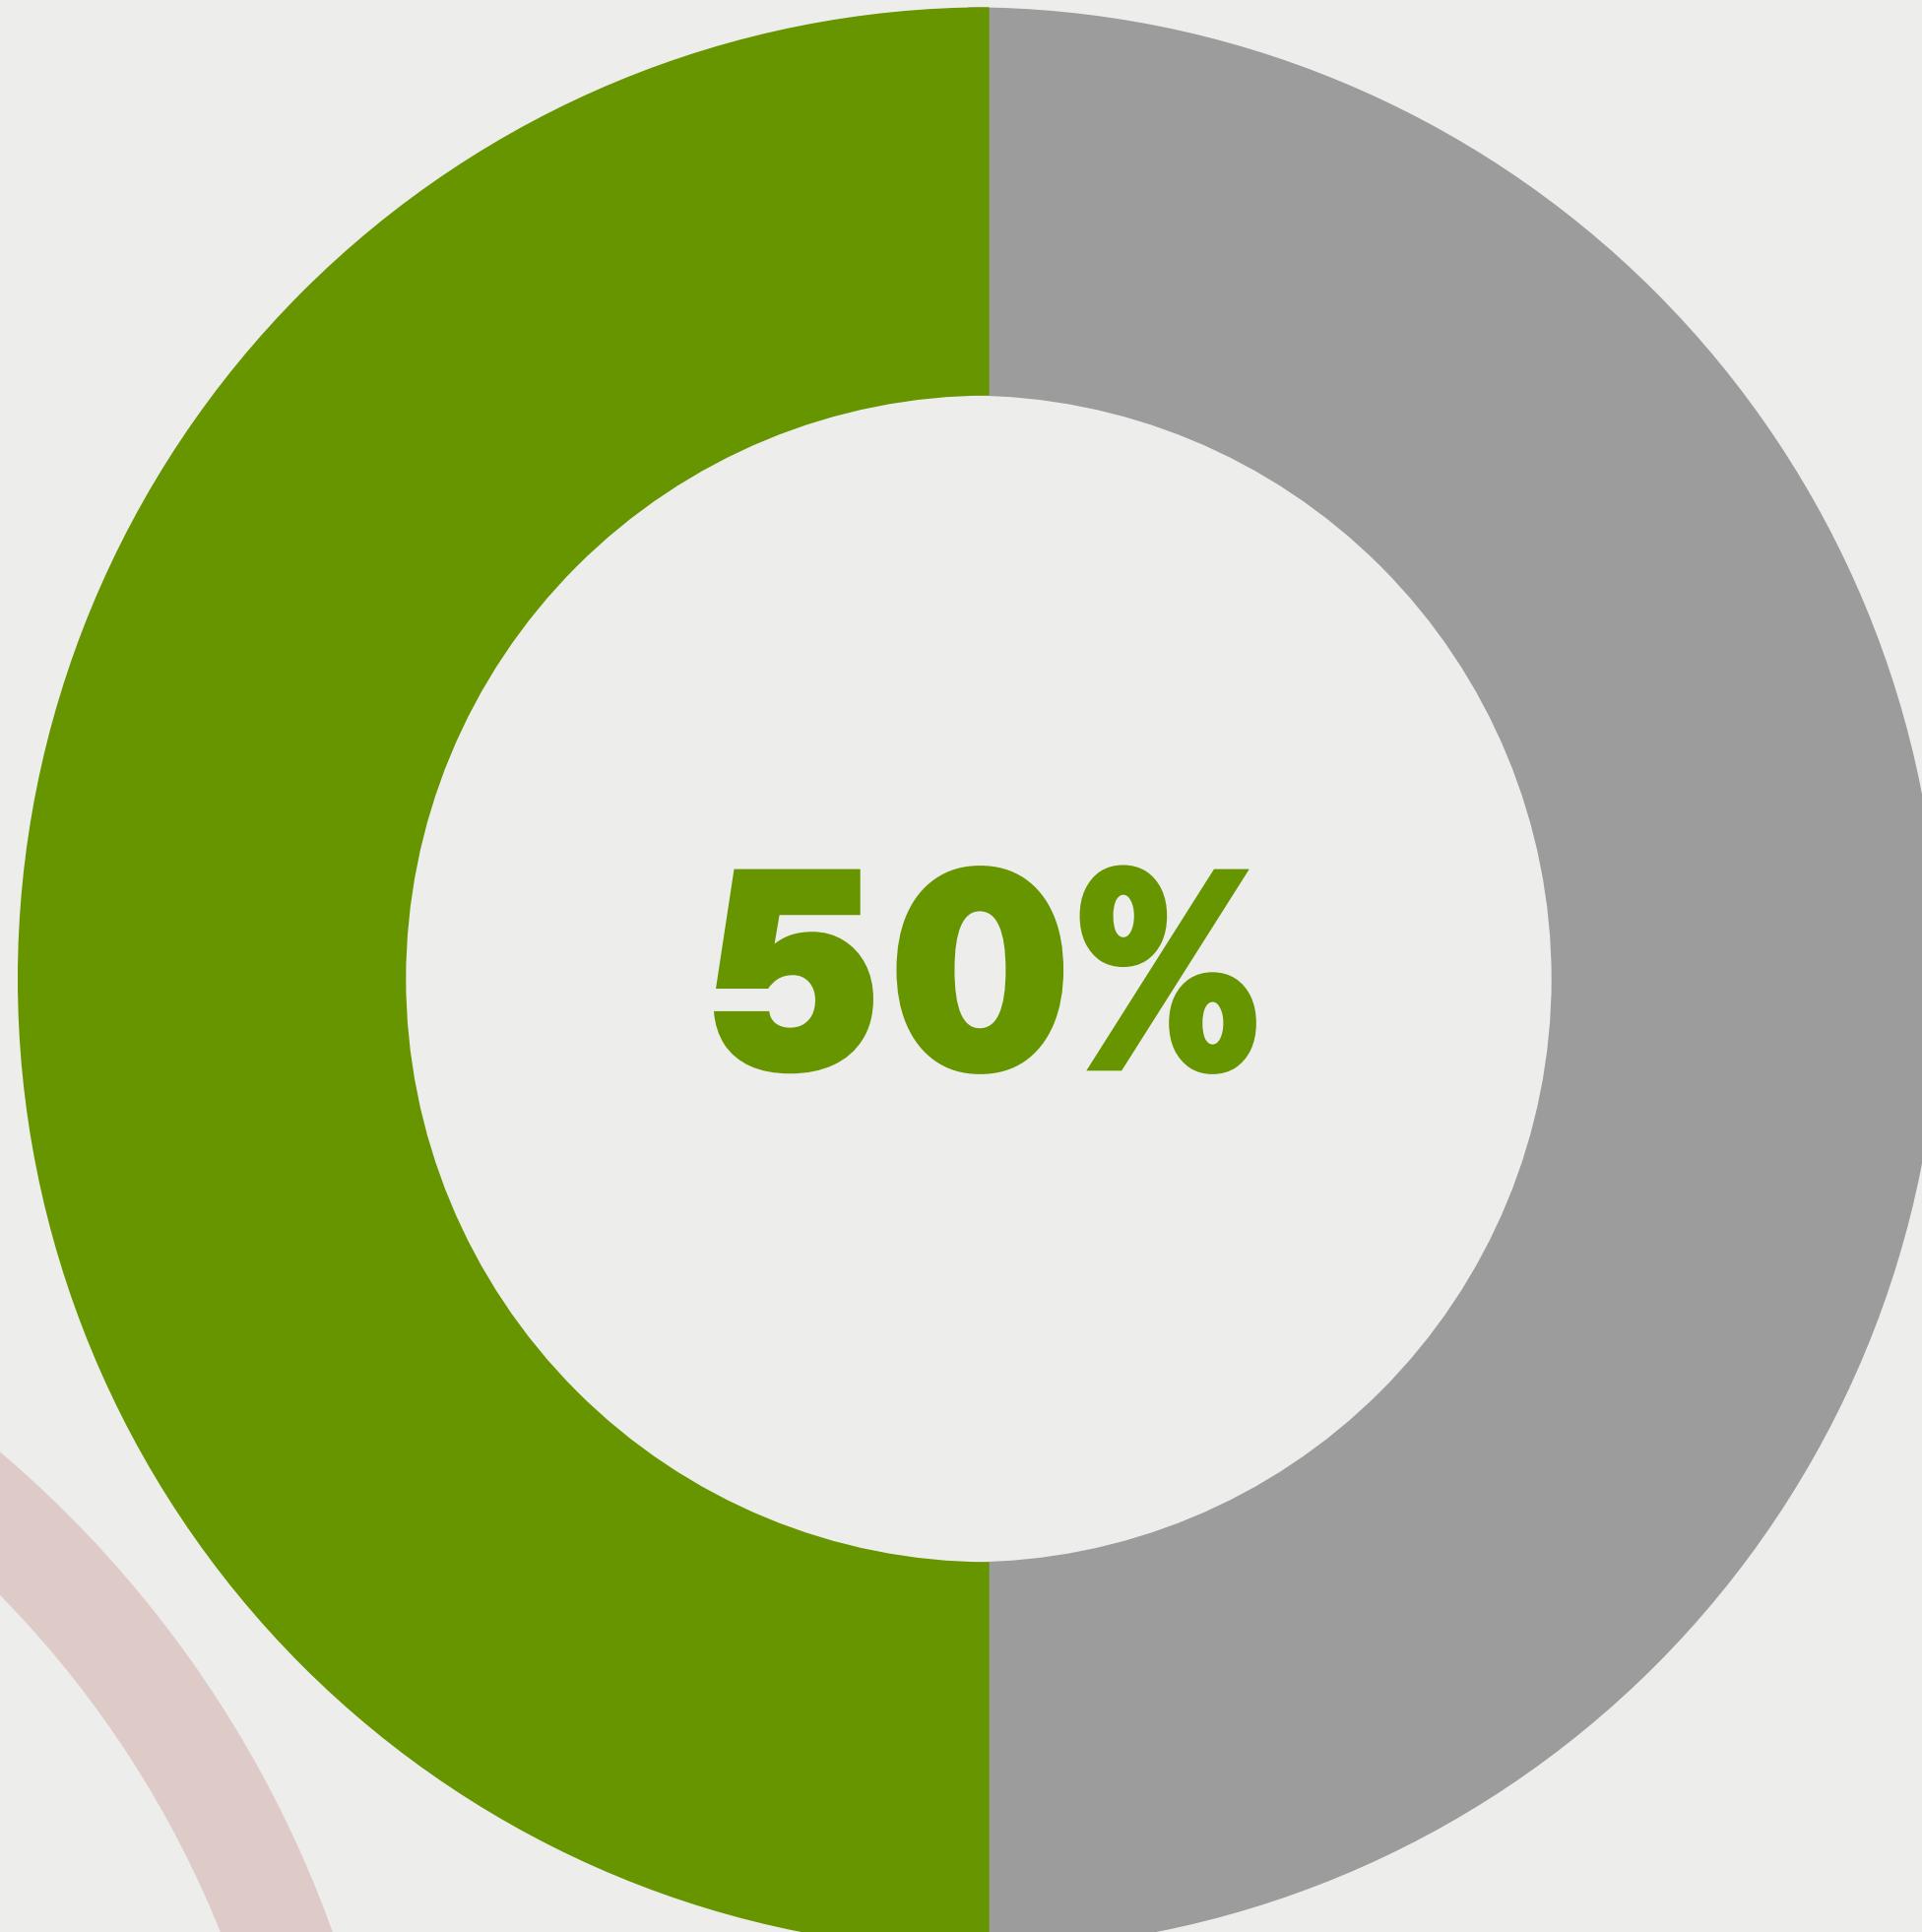

10 minutes

for Satya to greenlight IOF's mass surveillance of all Palestinian calls on Azure

11.5 petabytes

of audio of Palestinian phone calls were stored on Microsoft servers as a part of a mass surveillance weapon the IOF used to target Palestinians to **kill**, **kidnap**, and **blackmail** them.

Half of Microsoft's consulting revenue comes from the IOF

50%

That is 200 million hours of audio.

Once exposed, Microsoft facilitated mass transferring this phone call data to Amazon's AWS cloud.

Some profits Microsoft has made from the genocide of Palestinians:

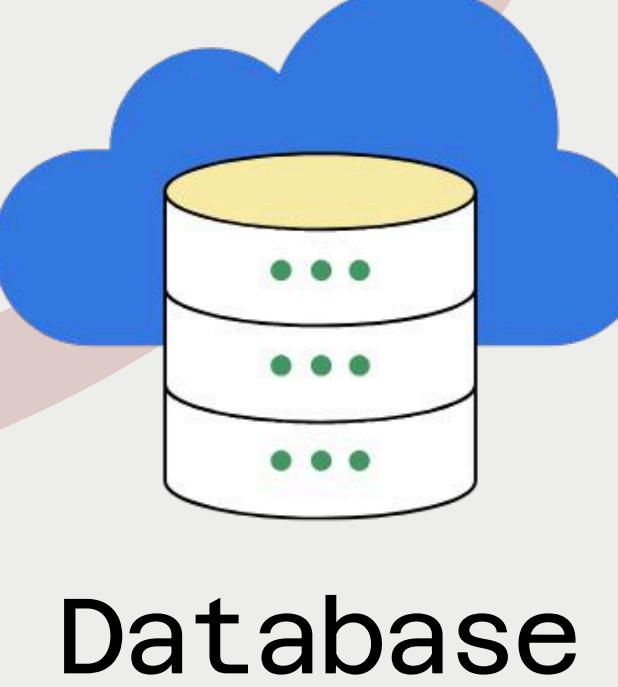

Israeli Ministry of Defense
\$133 million

Israeli Prisons
~\$1.7 million

Israeli PM Office
~\$6 million

Israeli Police
~\$3.5 million

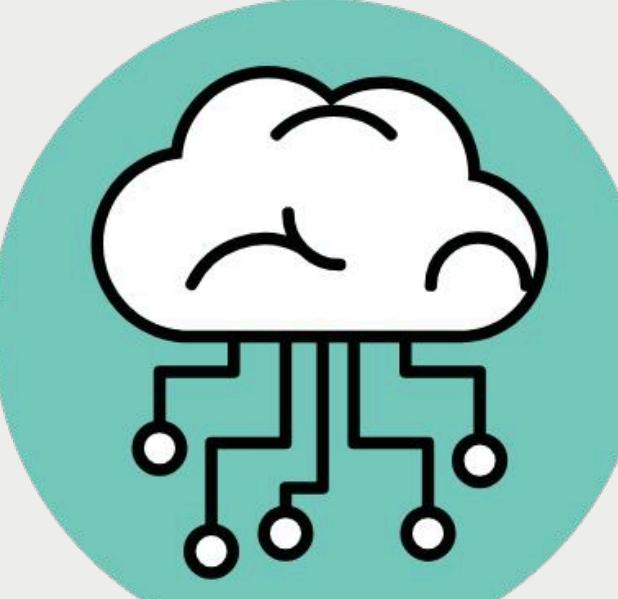

Elbit Systems
\$107 million

Database

Storage

AI

Some ways Azure is used to occupy Palestinians:

IOF's "Rolling Stone" Palestinian population registry

IOF's mass surveillance of Palestinians

IOF mass surveillance compilation and analysis
